

## SauverOs - Features

The primary goal of SauverOs is to provide FAST, SECURE environment to work on.

### <sup>a</sup> FAST <sup>a</sup>

SauverOs is comparatively a faster Operating System. This is due to the modular nature of SauverOs. When you access Office Application only a specific part of the Operating System is processed. Thus increasing the overall SPEED of your work.

### <sup>a</sup> SECURE <sup>a</sup>

SauverOs was created keeping in mind the security of the DATA. SauverOs is an Operating System which has almost zero threats from VIRUSES and SPYWARES. Thus there is no need to worry about the critical Data. Sauver also comes with Anti-Virus Software which helps to remove viruses from other Operating Systems.
